

MEDICAL SERVICES ACKNOWLEDGMENT FORM

Pecos Valley Public Services is a not-for-profit, 501(c)(3) locally based organization of the community. We are a non-governmental agency providing help and assistance in the wilderness. We also provide urgent and emergency services to the community if requested.

Your organization has requested medical support services for your event, and we are happy to provide assistance.

However, please note the following important limitations:

Service Limitations: While we do not charge for our services, we do not transport patients. In cases where advanced medical care is necessary, we will contact a licensed EMS agency equipped for transport and transfer care to them. This may result in charges for which the patient or their insurance may be responsible.

Staffing Requirements: We guarantee the presence of at least one licensed and insured EMT, certified by the State of New Mexico, at your event. Please be aware that this may or may not fulfill your organization's legal or regulatory requirements (if any). It is the sole responsibility of the event organizer to ensure compliance with all applicable regulations.

Limitations of Coverage: While we strive to monitor the event closely, there is no guarantee that every medical emergency will be detected. We cannot be held liable for any incidents that occur without our immediate awareness. Upon request, we will provide handheld radios to your staff to help maintain effective communication throughout the event.

By providing these services, we aim to support your event while emphasizing the shared responsibility for safety.
